

SELF MANAGED SUPER FUNDS – COMPLETE UPDATE OF DEED

The area of Superannuation law is multifaceted and constantly changing. Regulations of the Superannuation Industry (Supervision) Act are always being amended. There were approximately 350,000 active SMSFs in Australia in 2007. At least half of these do not take advantage of latest strategies and are non compliant.

Our Deed of Variation transforms the old Deed. It caters for changes in line with legislation since the Fund was established whilst retaining benefits that were previously available.

Self Managed Super Fund Updates are regularly carried out by our Solicitors. We recommend Super Deeds be updated at least every four years.

- Professionally bound Deed in triplicate
- Resolutions
